Research Papers

The ability of liver extracts from different-aged rats to repair 'mis-instructive' and 'non-instructive' lesions of DNA C. Pardini, L. Mariani, M. Voliani, G. Rainaldi and L. Citti (Italy)	1
Different rate of chromosome breakage in human fibroblast strains after storage in liquid nitrogen A. Casati, M. Stefanini, R. Giorgi and F. Nuzzo (Italy)	7
Demethylation of satellite I DNA during senescence of bovine adrenocortical cells in culture P.J. Hornsby, L. Yang and L.E. Gunter (USA)	13
The effect of aging on cell-cycle kinetics and X-ray-induced chromosome aberrations in cultured lymphocytes from patients with Down syndrome T. Takeshita, C. Ariizumi-Shibusawa, K. Shimizu, H. Hoshino, Z. Yamagata, S. Iijima, A. Asaka and M. Higurashi (Japan)	21
Effect of iron chelators on the cytotoxic and genotoxic action of hyperoxia in Chinese hamster ovary cells J.J.P. Gille, C.G.M. van Berkel and H. Joenje (The Netherlands)	31
Effects of mutagens on the clonal lifespan of <i>Paramecium tetraurelia</i> S. Fukushima, H. Ogawa and S. Sasagawa (Japan)	41
Modulation of DNA modification (I-compound) levels in rat liver and kidney by dietary carbohydrate, protein, fat, vitamin, and mineral content D. Li and K. Randerath (USA)	47
Gender differences and the interpretation of genetic instability in Alzheimer's disease L.M. Cherry, J. Funk, J.M. Lesser and M. Lesam (U.S.A.)	57
Enhancement of oxidative DNA degradation by histidine: the role of stereochemical parameters L. Marrot and P.U. Giacomoni (France)	69
The accident at Chernobyl and trisomy 21 in Finland T. Harjulehto-Mervaala, R. Salonen, T. Aro and L. Saxén (Finland)	81
Reduced 5-hydroxymethyluracil-DNA glycosylase activity in Werner's syndrome cells T. Ganguly and N.J. Duker (USA)	87
Effect of neonatal exposure to 5-bromo-2'-deoxyuridine on life span, estrus function and tumor development in rats – an argument in favor of the mutation theory of aging? V.N. Anisimov and G.Y. Osipova (Russia)	97
<i>Announcement</i>	111

Special Issue

Molecular Basis of Aging: Mitochondrial Degeneration and Oxidative Damage

edited by H. Joenje

<i>Preface: Aging of the 25th chromosome</i> H. Joenje (Netherlands)	113
<i>Mitochondrial Degeneration</i> Progressive loss of cytochrome c oxidase in the human extraocular muscles in ageing – a cytochemical-immunohistochemical study J. Müller-Höcker, K. Schneiderbanger, F.H. Stefani and B. Kadenbach (Germany)	115

Respiratory chain failure in adult muscle fibres: relationship with ageing and possible implications for the neuronal pool	
E. Byrne and X. Dennett (Australia)	125
Mitochondrial function in neurodegeneration and ageing	
A.H.V. Schapira and J.M. Cooper (UK)	133
Mitochondrial DNA alterations as ageing-associated molecular events	
Y.-H. Wei (Taiwan)	145
Deleterious mitochondrial DNA mutations accumulate in aging human tissues	
N. Arnheim and G. Cortopassi (USA)	157
Association of mitochondrial DNA damage with aging and coronary atherosclerotic heart disease	
M. Corral-Debrinski, J.M. Shoffner, M.T. Lott and D.C. Wallace (USA)	169
Mitochondrial DNA copy number and mitochondrial DNA deletion in adult and senescent rats	
M.N. Gadaleta, G. Rainaldi, A.M.S. Lezza, F. Milella, F. Fracasso and P. Cantatore (Italy)	181
Mitochondrial DNA mutation and the ageing process: bioenergy and pharmacological intervention	
A.W. Linnane, C. Zhang, A. Baumer and P. Nagley (Australia)	195
An update on the mitochondrial-DNA mutation hypothesis of cell aging	
J. Miquel (Spain, USA)	209
Evidence for and against the causal involvement of mitochondrial DNA mutation in mammalian ageing	
A.H. Bittles (UK)	217
New evidence for the insertion of mitochondrial DNA into the human genome: significance for cancer and aging	
J.W. Shay and H. Werbin (USA)	227
Structural dynamics of the mitochondrial compartment	
P.E. Thorsness (USA)	237
Lipid peroxidation and mtDNA degeneration. A hypothesis	
A.M. Hruszkewycz (USA)	243
Reactive oxygen and DNA damage in mitochondria	
C. Richter (Switzerland)	249
<i>Oxidative Damage</i>	
Free radical theory of aging	
D. Harman (USA)	257
Role of oxidative stress in <i>Drosophila</i> aging	
J.E. Fleming, I. Reveillaud and A. Niedzwiecki (USA)	267
Age-related changes in antioxidant enzymes and lipid peroxidation in brains of control and transgenic mice overexpressing copper-zinc superoxide dismutase	
I. Ceballos-Picot, A. Nicole, M. Clément, J.-M. Bourre and P.-M. Sinet (France)	281
Mitochondrial production of pro-oxidants and cellular senescence	
R.S. Sohal and U.T. Brunk (USA, Sweden)	295
Oxidative and other DNA damages as the basis of aging: a review	
G.E. Holmes, C. Bernstein and H. Bernstein (USA)	305
DNA damage and repair in brain: relationship to aging	
K. Subba Rao and L.A. Loeb (India, USA)	317
Oxidative damage to DNA in mammalian chromatin	
M. Dizdaroglu (USA)	331
Chemical and biochemical postlabeling methods for singling out specific oxidative DNA lesions	
J. Cadet, F. Odin, J.-F. Mouret, M. Polverelli, A. Audic, P. Giacomoni, A. Favier and M.-J. Richard (France)	343
Formation of ribonucleotides in DNA modified by oxidative damage in vitro and in vivo. Characterization by ³² P-postlabeling	
K. Randerath, R. Reddy, T.F. Danna, W.P. Watson, A.E. Crane and E. Randerath (USA, UK)	355
Singlet oxygen induced DNA damage	
H. Sies and C.F.M. Menck (Germany, Brazil)	367
Interaction of singlet oxygen with DNA and biological consequences	
J.T. Lutgerink, E. van den Akker, I. Smeets, D. Pachen, P. van Dijk, J.-M. Aubry, H. Joenje, M.V.M. Lafleur and J. Retèl (Netherlands, France)	377
Hypothesis: a damaging role in aging for reactive protein oxidation products?	
R.T. Dean, J. Gebicki, S. Gieseg, A.J. Grant and J.A. Simpson (Australia)	387

A novel hypothesis of lipofuscinogenesis and cellular aging based on interactions between oxidative stress and autophagocytosis

U.T. Brunk, C.B. Jones and R.S. Sohal (Sweden, USA)

395

Cell culture models for oxidative stress: superoxide and hydrogen peroxide versus normobaric hyperoxia

J.J.P. Gille and H. Joenje (Netherlands)
